

## CANDY MINI WRAP MACHINE — MW03

### HIGH SPEED PILLOW PACK MACHINE SUITABLE FOR WRAPPING SMALL HARD CANDYS AND SIMILAR PRODUCTS

The Candy Mini Wrap machine is a high-speed packing machine suitable for wrapping small candies such as rounds, ovals, squares, and oblongs. Whether you're packaging hard candies or similar products, this high-speed pillow pack machine delivers consistent, high-quality results. With an output speed of 20 to 800 wraps per minute and adjustable pack lengths between 42mm to 80mm, it can handle various candy shapes. The vibratory feeder delivers an automatic product feed into the feed plate / chain infeed system.

The machine is designed for ease of operation with a user-friendly keypad for bag length control and comes equipped with a wrap counter and speed indicator for process monitoring. Its multi-brush feed system is driven by four independent motors, ensuring precise product feeding. Built for durability, the Candy Mini Wrap features a robust steel powder-coated finish and stainless-steel contact parts, making it ideal for long-term use in busy production environments.

The machine is supplied mounted on wheels with screw down anchor feet.

### FEATURES

- Print registration for running printed films
- Film length adjustment via HMI interface
- Multi-brush feeding system
- Integrated wrap counter and speed indicator
- Mounted on castors for easy mobility
- Vibratory feed hopper for automatic product feeding

### OPTIONS

- Date/Code printer
- Text Graphic & bar code printer
