

BUNCH WRAPPING MACHINE FOR LOLLIPOPS-BL05

FOR BUNCH WRAPPING LOLLIPOPS AT SPEEDS OF UP TO 115 LOLLIPOPS PER MINUTE.

The Loynds BL05 is designed for efficient and consistent wrapping of ball lollipops at speeds of up to 115 lollipops per minute. Lollipops are loaded into the machines hopper where the automatic feed plate will transfer them into the wrapping section.

Lollipops are then individually wrapped in a bunch style wrap. The machine is controlled via a HMI screen and includes a print registration unit for running printed film and a no product no film sensor to prevent wasted film.

FEATURES

- **Speed:** variable speed up to 115 ball lollipops per minute.
- **Automation:** Features an automatic feed plate and brush feeding mechanism, seamlessly transferring lollipops to the wrapping section.
- **Bunch Style Wrapping:** Specifically designed for ball lollipops, providing secure and neat packaging.
- **Size Range:** Capable of wrapping lollipops of 20 – 30mm in diameter
- **Print Registration:** Compatible with printed films the unit will align the packaging design onto the lollipop.
- **Film Handling:** Equipped with an air-assisted film feed for smooth operation.
- **No Product No Film:** Incorporates a 'no lollipop, no film' sensor, ensuring material efficiency and reducing waste.
- Paper length adjusted on HMI touch screen.
- Total amount wrapped indicator.
- **Safety:** guarding with magnetic guard switches.

OPTIONS

- Caster wheels
- Loading conveyor
